Dear Sirs

Yours of Jyly 1st offering us Oiselio's "Thesaurus" is at hand. I regret that we cannot make you an offer for this book, which is one of a great many of the same nature which have been superceded since the photographic process came into general use. The illustrations are all engraved and the element of inaccuracy is so great that study of this subject has been put on a solid basis only since the introduction of the photographic process. Thanking you for offering us the book, I am

Very truly yours,
